

In Partnership with C-SPUR and the New York State Department of Health Aids Institute

End the Aids Epidemic by 2020 Initiative

The Center for the Study and Practice of Religion and the New York State Department of Health AIDS Institute are conducting a focus group with faith leaders in NYC to discuss:

- 1) How can faith communities contribute to identifying undiagnosed persons and connect them to care.
- 2) What can faith communities do to support persons in care to realize viral suppression.
- 3) How can faith communities promote PrEP and PEP (Pre-exposure prophylaxis) to reduce new HIV infections.
- 4) What challenges faith communities might face, participating in this initiative, and what the NY State Department of Health can do to support faith communities engagement in this process.

THURSDAY, NOVEMBER 1, 2018

10:00 A.M. - 1:00 P.M.

**New York Theological Seminary
475 Riverside Drive, Suite 500, Conference Room A
